Why Bansal Institutes?

BANSAL GROUP, one of the pioneer groups in the field of technical education in central India is vastly diversified, boasting of ventures comprising infrastructure development, media, Hospital, steel plant, production of soya oil etc.

We provide an environment conducive to the growth of the students here at BANSAL GROUP OF INSTITUTES.

THINGS TO REMEMBER while choosing an Institute...

Become an aware parent:

As an aware guardian, the onus is on you, to keep track of the results produced by various institutions, both at University level as well as in terms of employment opportunities provided, to make an informed decision. A visit to the institution affords you the opportunity to check the veracity of the claims made by the institution.

Don't Go blindly with your ward's choice:

A student's choice of Institution is often influenced to a great extent by his friends or peer group. A choice made solely on the basis of the lure of joining their best friends may not bode well for them. It would be wise to investigate beforehand, things like environment, training & placement facilities, approach of the management, number of Chancellor's Awards received (for academic excellence), University results, experienced & motivated faculty.

Don't Go with the hype:

The hype surrounding an Institution doesn't guarantee good placements or effective transfer of knowledge from faculty to student.

Don't just go for admission to an Institute only by the hype it tries to create about itself. A visit to the premises and a conversation & interaction with currently studying students will furnish a much clearer picture.

In-house Trainings:

The in-house trainings set the students on the path to glory providing training that transforms them into Industry-ready professionals by catering to the needs of the students in state-of-the-art laboratories, auditoriums etc.

1. DRONE TECHNOLOGY
2. INTERNET OF THINGS
3. STAAD PRO
4. ATV
5. PYTHON
6. TOTAL STATION & GEOGRAPHIC INFORMATION SYSTEM
7. MATLAB
8. PLC PROGRAM TRAINING
9. CNC PROGRAMME OPERATION TRAINING
10. SOFTWARE TRAINING ON NX
11. C & C++ PROGRAMMING CAPSULE
12. WordPress
13. Spring with Hibernate

What makes Bansal Institutes different from all other Institutes?

- Availability of advanced technology through training programmes in thrust areas.
- Focus on personality development by providing training in soft skills to ensure highest placements.
- Motivation & Mentorship to scale new heights (25 students received Chancellor's Award in 2017-18.)
- An environment conducive to studies complemented by a well stocked library.
- Unparalleled placement opportunities (200 plus students have already been placed in various leading companies like Zensar, TCS, Byju's etc. within the first semester of this academic session. Many more companies are in pipeline to visit and select the students in the coming semester.
- Emphasis on excellence (BIST has been awarded as the best institute in M.P.)
